NEW PERFORMANCE & SAFETY

NEW ENGINE-HR15DE

Desain mesin baru HR15DE 1.500cc dengan Dual Injector dan Twin VTC (Intake & Exhaust) menghasilkan perpaduan yang semakin optimal antara performa mesin dengan efisiensi bahan bakar (Tipe 1.5).

NEW XTRONIC CVT

Pada Auto-transmission, menggunakan teknologi inovatif XTRONIC CVT (Continuously Variable Transmission) generasi baru yang menawarkan sensasi akselerasi yang lebih halus dan nyaman, tanpa hentakan saat perpindahan gigi (Tipe 1.5).

Auto Door Lock Speed Sensing*

Pada kecepatan 10 km/jam, pintu akan mengunci secara otomatis.

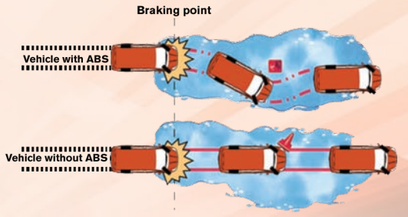
*Kecuali Tipe SV

Head Lamp

Penerangan area depan yang luas dari Head Lamp halogen.

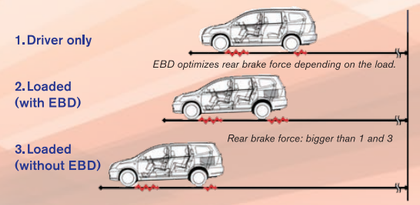
High-mounted Stop Lamp

All New Nissan Grand Livina juga dilengkapi LED High-mounted Stop Lamp, sehingga pengemudi lain di belakang bisa mengetahui kapan Anda menginjak pedal rem.



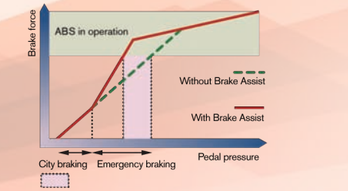
Anti-lock Braking System (ABS)*

Saat mengerem mendadak, sistem ABS akan memompa rem sebanyak puluhan kali per detik agar roda tidak mengunci sehingga arah dan laju kendaraan tetap terkendali.



Electronic Brake-force Distribution (EBD)*

Serangkaian sensor memantau bobot keseluruhan kendaraan beserta muatan untuk kemudian menyalurkan daya pengereman yang sesuai untuk deselerasi yang lebih stabil serta berimbang.



The effect of Brake Assist: Graphic representation of the difference Brake Assist makes to pedal pressure up to the point where ABS comes into operation.

Brake Assist (BA)*

Sistem tahu kapan daya pengereman maksimum harus digunakan dengan memantau seberapa cepat pedal rem diinjak. Saat pedal rem diinjak mendadak, sistem BA akan memberikan daya pengereman tambahan yang dibutuhkan.

*ABS+EBD+BA kecuali di Tipe SV

NEW SAFETY FEATURES

Dual SRS Airbag

Pengamanan lebih maksimal dengan Dual SRS Airbag di sisi pengemudi dan penumpang yang mengembang otomatis saat terkena benturan keras dari depan.

Seat Belt 3P ELR with Pretensioner & Load Limiter

Fitur Pre-tensioner pada sabuk pengaman berfungsi menjaga dan meminimalisir pergerakan tubuh pengemudi/penumpang secara horizontal pada saat terjadi pengeremen mendadak/benturan.

Side Impact Bar

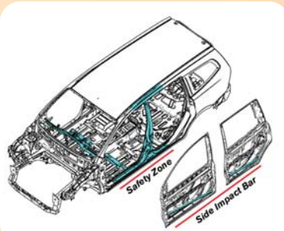
Pipa baja ditanam pada pintu samping untuk melindungi penumpang terhadap benturan kuat dari samping.

Collapsible Steering Column

Saat terjadi benturan keras dari arah depan, batang kemudi akan turun dengan sendirinya sehingga tubuh pengemudi tidak akan menghantam roda kemudi.

Safety Zone

Struktur rangka kabin yang kokoh memberi perlindungan bagi penumpang saat terjadi benturan keras.



SAFETY SHIELD

Konsep Nissan akan "kendaraan yang mampu melindungi manusia." Di bidang teknologi keselamatan berkendara, Nissan terus berinovasi sebagai bagian dari konsep "*Safety Shield*" yang merupakan pendekatan proaktif mutakhir dalam hal keselamatan dengan mengacu pada ide bahwa mobil seharusnya mampu melindungi manusia. Pendekatan ini memungkinkan Nissan untuk membantu pengendara dan penumpang menghindarkan diri dari segala bentuk situasi yang membahayakan, mulai dari "resiko yang mungkin terjadi" hingga "pasca tabrakan".

SEEKING A SYMBIOSIS OF PEOPLE, VEHICLES AND NATURE

Falsafah Nissan mengenai lingkungan dapat digambarkan sebagai "kesatuan antara manusia, kendaraan dan lingkungan." Nissan mencita-citakan suatu masyarakat yang peduli kelestarian lingkungan untuk kini dan nanti. Guna mewujudkan hal tersebut, Nissan mencanangkan Nissan *Green Program* 2010, selain juga terus berupaya menekan dampak lingkungan yang mungkin ditimbulkan oleh produk maupun kegiatan usahanya.

NISSAN PRODUCT QUALITY POLICY

Menghadirkan kendaraan dengan kualitas terbaik yang diproduksi berdasarkan standar ketat yang diterapkan di seluruh dunia, sehingga Anda senantiasa dapat menikmati kehandalan serta kenyamanan selama mengemudikan kendaraan Nissan.

DIMENSION THAT FITS ALL

Dimensi ideal sebagai MPV yang memenuhi segi aerodinamis & kestabilan berkendara layaknya sedan. Kabin yang lapang memberi kenyamanan bagi penumpang maupun kebutuhan akomodasi barang Anda.

Lounge Mode 1
Penumpang baris ke-3 bisa bersantai meluruskan kaki dengan melipat kursi baris ke-2.

Lounge Mode 2
Dengan melipat kursi di baris ke-3 Anda akan mendapatkan ruang bagasi yang lebih luas.

Lounge Mode 3
Untuk barang bawaan yang cukup besar, Anda bisa melipat sebagian kursi di baris ke-2.

Lounge Mode 4
Ruang bagasi ekstra luas dengan melipat kursi baris ke-2 & 3 untuk ruang tidur atau barang bawaan yang lebih besar.

NEW COMFORT FEATURES
