that excites**

X-TRAIL

Features and specifications subject to change depending on market requirements. Please consult with your local dealer.

GO WHERE

YOU WANT TO GO

There's no better destination than where you are going. That is why we designed the **all-new Nissan X-Trail**, a crossover with comfort and technology that will give every journey a sense of style and a unique point of view.

Features and specifications subject to change depending on market requirements. Please consult with your local dealer.

Sit back and relax in comfort: luxury finished leather seats and a panoramic sunroof.

Zero gravity inspired seats with lumbar support.

With your comfort in mind, Nissan has used the most advanced technology to engineer an ergonomic seat for a neutral posture and exceptional comfort and luxury behind the wheel.

Features and specifications subject to change depending on market requirements. Please consult with your local dealer.

TAKE CONTROL

All-new Nissan X-Trail offers steering wheel controls as well as Around View Monitor (AVM).

- Bluetooth® audio streaming
- iPod® Ready
- Intelligent Key (iKey®) and push start engine button
- Cruise control
- Automatic Dual Zone air conditioning

Features and specifications subject to change depending on market requirements. Please consult with your local dealer.

Features and specifications subject to change depending on market requirements. Please consult with your local dealer.

BREATHTAKING FROM EVERY ANGLE

Wherever you are, **all-new Nissan X-Trail** creates the perfect atmosphere.

Panoramic One-touch sunroof

Enjoy a wonderful view of the sky and your next destination.

Heated and cooled cup holders

Help keep your drinks frosty or toasty.

SLIDE, GLIDE AND RECLINE

A smarter 2nd row, thanks to **all-new Nissan X-Trail's** EZ-Flex system. The 60 / 40 split seat slides forward for easy access and adjusts to give you a little more cargo space, more leg room or anywhere in between. The seats also recline, when it's time to just relax.

All-new Nissan X-Trail welcomes you to first class.

Optional 3rd row.

Leave nothing and no one behind. If you need more than the first two rows, X-Trail offers you the option of a third row to carry up to 7 passengers.

Take anything from a baby seat to a surfboard thanks to the rear doors that swing out 77°.

- 2nd row seats that recline and slide forwards.
- 5th door that opens with a No-Touch sensor for easy access to the cargo area.

Features and specifications subject to change depending on market requirements. Please consult with your local dealer.

SPACE FOR EVERYONE

All-new Nissan X-Trail gives you possibilities you never knew you had, because with the clever 40 / 20 / 40 foldable seat, there's always room for more.

INNOVATION THAT HELPS THE ENVIRONMENT

The **all-new Nissan X-Trail** gives you an excellent fuel economy with its re-designed exterior aerodynamics that whisper through the wind and a virtually gearless Xtronic CVT[®] transmission that maximizes efficiency and performance.

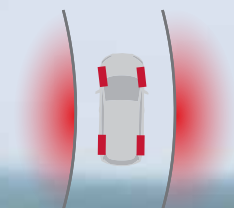

A CAR THAT MOVES WITH YOU

We've engineered an intuitive response system into every **all-new Nissan X-Trail** that identifies the road conditions so you can drive with more confidence, no matter what the situation.

Intuitive AWD*. With **all-new Nissan X-Trail's** All-Mode 4x4-i, you've got a system that's capable on-road and off. You can choose full-time 2WD for maximum efficiency. Auto Mode constantly monitors conditions and adjusts the balance of power between front and rear wheels for best traction. Challenging conditions? AWD Lock Mode is your choice.

*Only advance and exclusive version.

Integrated Dynamic Control Module (IDM):

The module integrates three functions for driving assistance: **Active Trace Control, Active Ride Control and Active Engine Brake.**

Active Engine Brake (AEB):

Whether you're slowing for a corner or coming to a stop, this system uses the CVT transmission to apply engine braking much like shifting to a lower gear in traditional transmissions to help give smoother deceleration and a more confident feel when braking.

Active Trace Control (ATC):

A turn for the better. This innovative technology helps improve control when you take a corner. It reads the cornering situation and, if needed, can brake each wheel individually to help you steer through the turn with confidence.

Active Ride Control (ARC):

Tired of bumps feeling like a bucking bronco? With Active Ride Control, **All-new Nissan X-Trail** can automatically apply braking and adjust engine torque after you hit a bump to smooth out your ride.

Features and specifications subject to change depending on market requirements. Please consult with your local dealer.

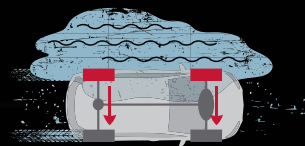

Hill Descent Control (HDC):

Technology that automatically adjusts speed making going down steep grades more manageable and smooth, without the need to use the brake.

Hill Start Assistance (HSA):

Hill Start Assistance helps prevent rollback when starting and driving away on an incline.

Active Brake Limited Slip (ABLS):

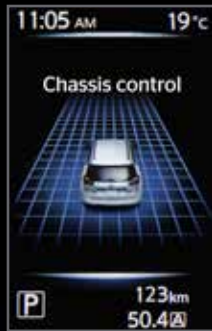

To help provide better grip in slippery conditions, ABLS can apply braking to an individual wheel when it starts to spin.

INNOVATION RIGHT IN FRONT OF YOU

With so much going on around you, it's easy to lose sight of what's most important: driving. **All-new Nissan X-Trail's** Advanced Drive Assist™ Display serves up info right in front of you, helping to minimize time looking away.

Features and specifications subject to change depending on market requirements. Please consult with your local dealer.

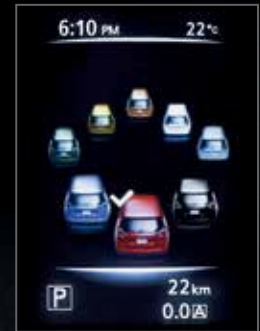

Chassis control

Distance driving

iPod®

Choose the color of the vehicle according to your preference

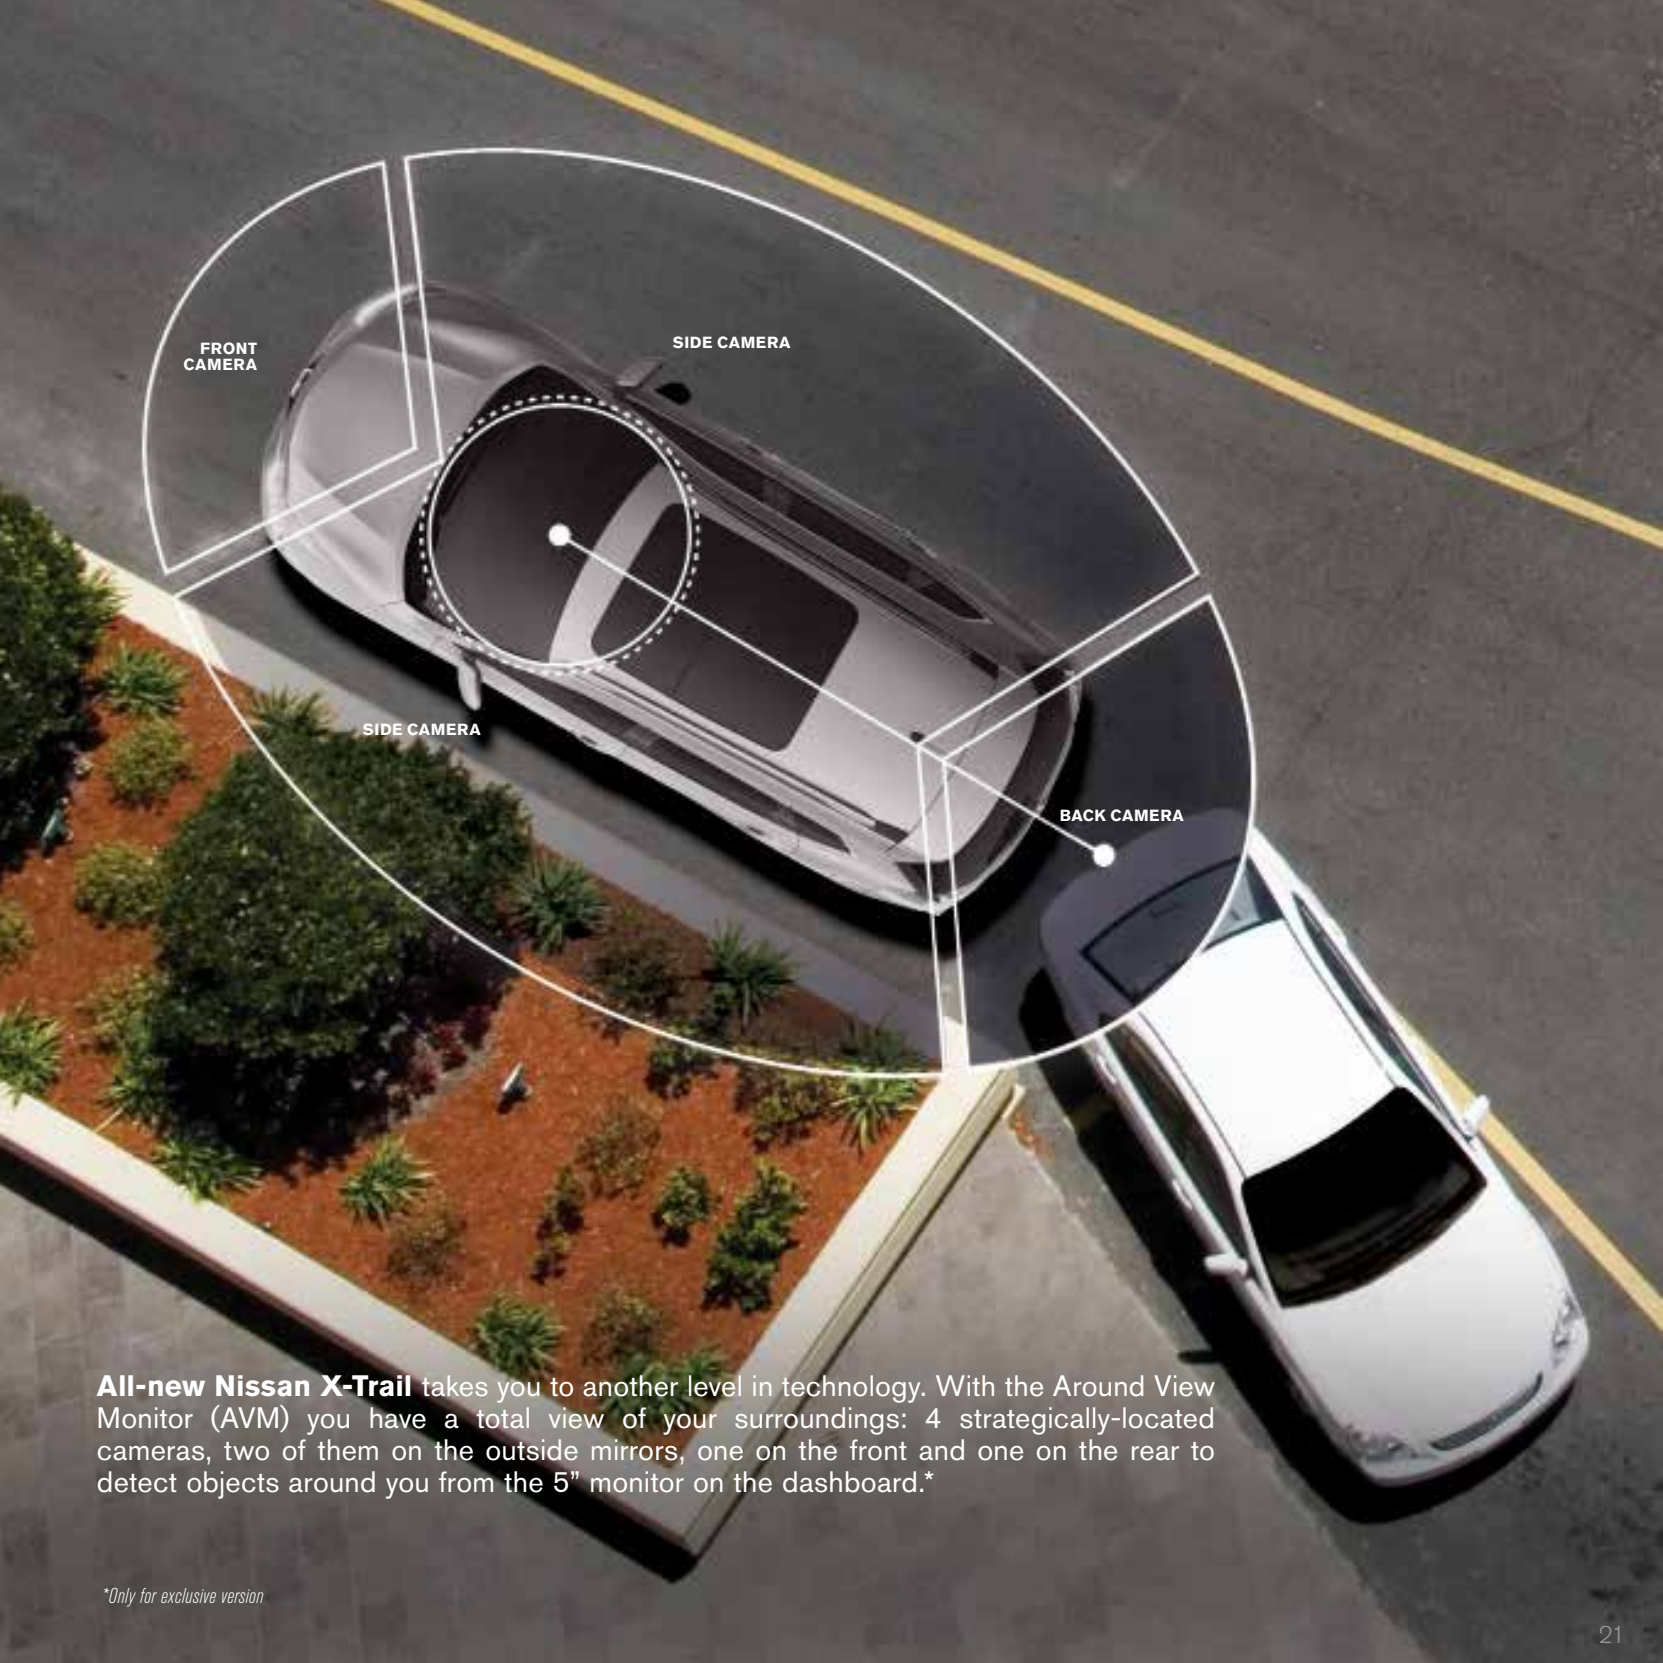

You can also configure additional functions on the screen: audio, detailed distance driving, fuel economy, average speed, door warning.

A close-up photograph of the Nissan X-Trail's infotainment system. The central screen displays a 360-degree bird's-eye view of the vehicle, with a white car icon in the center and orange lines indicating the vehicle's footprint and surrounding environment. Below the screen, there are several buttons: 'RPT 1', 'RDM 2', '3', '4', '5', and '6'. To the left of the screen are buttons for 'FM-AM', 'CD', 'MEDIA', and 'DISP'. To the right are 'SCAN', 'SEEK-TRACK', and 'Apps BACK'. Below the screen is a large circular volume knob with a power button in the center. To the right of the volume knob is a 'TUNE-FOLD' knob with an 'ENTER SETTING' button. Below the infotainment screen is a digital display showing '30.0 °C' and 'DUAL 26.0 °C'. Below the digital display are buttons for 'MODE', 'A/C', and 'AUTO'. A large circular button with 'PUSH ON-OFF' is visible at the bottom left.

IT'S GOT YOUR BACK, AND THE REST OF YOU TOO

The monitor of the **all-new Nissan X-Trail** lets you see everything that's going on around you thanks to its four cameras that give you a virtual 360° bird's-eye view of your vehicle.

All-new Nissan X-Trail takes you to another level in technology. With the Around View Monitor (AVM) you have a total view of your surroundings: 4 strategically-located cameras, two of them on the outside mirrors, one on the front and one on the rear to detect objects around you from the 5" monitor on the dashboard.*

**Only for exclusive version*

Features and specifications subject to change depending on market requirements. Please consult with your local dealer.

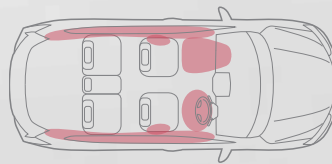

NISSAN SAFETY SHIELD® philosophy

INNOVATION THAT LOOKS OUT FOR YOU

Nissan Safety Shield® is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

- **Vehicle Dynamic Control (VDC)** helps you maintain your steered path.
- **Traction Control System (TCS)** helps reduce wheelspin in low traction situations.
- **Anti-lock Braking System (ABS)** helps you maintain steering control around obstacles while braking heavily.
- **Electronic Brake Distribution (EBD)** sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.
- **Brake Assist (BA)** helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

All-new Nissan X-Trail protects you even when a collision is unavoidable. Nissan's Zone Body Construction helps absorb the impact while the advanced seat belt and airbag systems help protect passengers.

6 AIRBAGS

Nissan Airbag system:

- Front airbags
- Front side - impact airbags
- Curtain side - impact airbags

LATCH System (Lower Anchors and Tethers for Children)

The airbag images contained here in this catalog are only illustrative and do not represent the real features, functionality or accurate sizes of this security mechanism; for more detail of the airbags we suggest to contact an Authorized Nissan Dealer.
