NISSAN DRIVE-ASSIST™ DISPLAY

DRIVE AND PERFORMANCE DATA ON FULL DISPLAY

Live at the forefront thanks to Drive Assist™ Display, that will show you the trip's information and the fuel economy so you can focus on what really matters: taking over the city.

Features and specifications can change depending on market requirements. Please consult your local dealer.

LOOKING BACK WILL BE AS EASY AS LOOKING FORWARD

The rearview camera of the **totally new Nissan Kicks** helps make backing out easier than ever. Plus, the Rear Sonar System will send you an alert when it detects objects behind the vehicle.

Features and specifications can change depending on market requirements. Please consult your local dealer.

SHOW OFF YOUR STREET SMARTS

There's a reason why Kicks brings more fun and excitement to every drive. Thoughtful design. With features like Automatic Climate Control keeping things comfortable, USB Connectivity making things easy and the Follow Me Home feature helping light the way to your door after a long night out, there's no city this vehicle isn't ready for.

AUTOMATIC CLIMATE CONTROL

When the nightlife really starts to heat up, dial in your perfect temperature with the Automatic Climate Control system.

USB CONNECTIVITY

Plug your smartphone, iPod®, thumb drive or other compatible device into the convenient USB input, and take your whole music collection on the road.

PUSH START ENGINE BUTTON

No more fiddling with keys. Just get in, hit the Push Start Engine Button and get to the action quicker than ever.

Features and specifications can change depending on market requirements. Please consult your local dealer.

SMARTPHONE CONNECTIVITY

Enjoy your favorite apps displayed on your vehicle's screen: navigate, check your messages, select your playlists or podcasts, and more. Just pair your smartphone with the totally new Nissan Kicks.

"FOLLOW ME HOME"

Click the turn signal before getting out of the vehicle and the head lamps will stay on for a short period to help light the way. Every click of the turn signal adds another 30 seconds of light.

BLUETOOTH®

The totally new Nissan Kicks definitely keeps you connected. Make or receive calls with a touch of a button on the steering wheel. All while your phone stays tucked away.

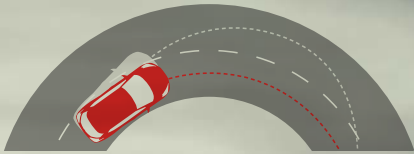

INTELLIGENT KEY

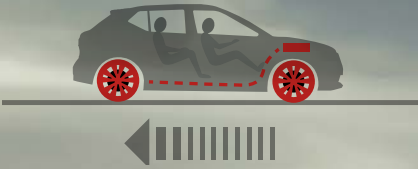

Getting in has never been easier. You can unlock the doors and liftgate, get in the totally new Nissan Kicks, start the engine and drive off, all without taking the key out of your purse or pocket.

CORNERING THE MARKET ON THRILLS

Just because the **totally new Nissan Kicks** is practical, doesn't mean it isn't thrilling to drive. With advanced driving dynamics features that help it come alive in the corners, battle rough roads, and slow down smoothly. You might just forget about your destination and keep on driving.

By selectively applying Kick's brakes when cornering, **Intelligent Trace Control** can automatically engage the inner or outer brakes, helping to optimize your line through a turn.

As you apply the brakes, Kick's **Intelligent Engine Brake** system downshifts the CVT, slowing the vehicle with less effort, while enhancing the feeling of stopping confidence.

In the event you're jostled by a bump in the road, Kick's **Intelligent Ride Control** system kicks in. It works by automatically applying the brakes to help smooth the impact, helping you stay composed and comfortable.

1.6 L | 118 HP | 110 LB-FT

EFFICIENCY MOVES TO THE FAST LANE

EFFICIENT ENGINE

The innovative 1.6-L engine offers smoother power delivery and better efficiency by using a special coating on the pistons to reduce friction.

LIGHTWEIGHT DESIGN

With the use of high-tensile strength steel in key areas and an all-new rear beam suspension, weight was kept down. The result? Efficiency went up.

CVT TRANSMISSION

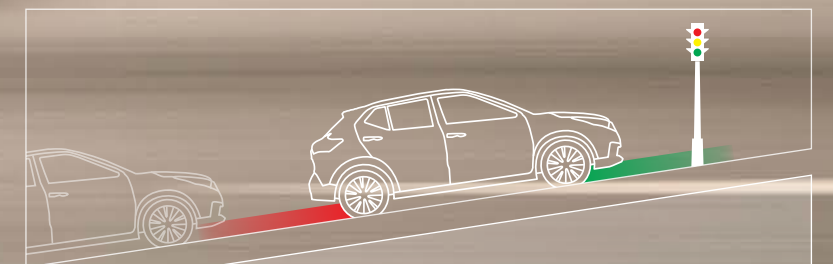

Designed for a sportier driving experience, the redesigned CVT transmission features built-in shift points that activate under heavy acceleration.

Performance and efficiency can go hand in hand, and the **totally new Nissan Kicks** is driving proof of it. Even with plenty of get up and go, the combination of an advanced engine, lightweight design, and a virtually gearless transmission mean Kicks gets the most out of every drop of fuel. Something its aerodynamic design enhances even further.

Features and specifications can change depending on market requirements. Please consult your local dealer.

HILL START ASSIST

Starting from a stop on a hill? No problem. Hill Start Assist helps make sure you won't roll backwards by automatically holding brake pressure for a few seconds. Giving you time to switch your foot from the brake to the accelerator.

NISSAN SAFETY SHIELD PHILOSOPHY

INNOVATION THAT LOOKS OUT FOR YOU

What if you had the confidence you need for every part of your drive? The **Nissan Safety Shield** is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

MONITOR

Smart technologies are designed to help monitor conditions, from a system that gives you a helping hand when backing up, to a system that gives you a bird’s-eye view of your surroundings.

Rear Sonar System

RECOVER

Whether you need to hit the brakes hard or manoeuvre around an unexpected obstacle, these standard technologies help you respond to a potentially harmful situation.

Vehicle Dynamic Control

Traction Control System

Anti-lock Braking System

Electronic Brake Distribution

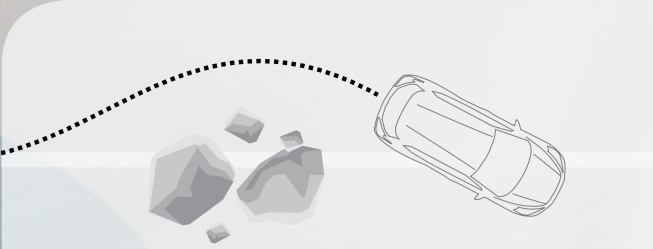

Brake Assist

PROTECT

When a collision is unavoidable, Nissan’s Zone Body construction helps absorb the impact while the advanced seat belt and air bag systems help protect passengers.

Six Standard Air Bags (optional)

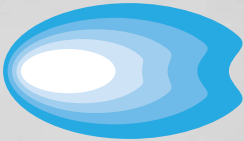

ISOFIX System

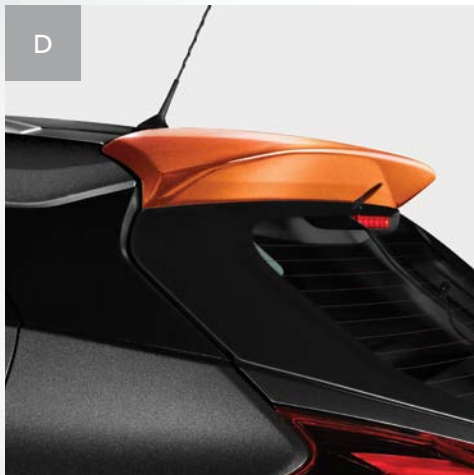

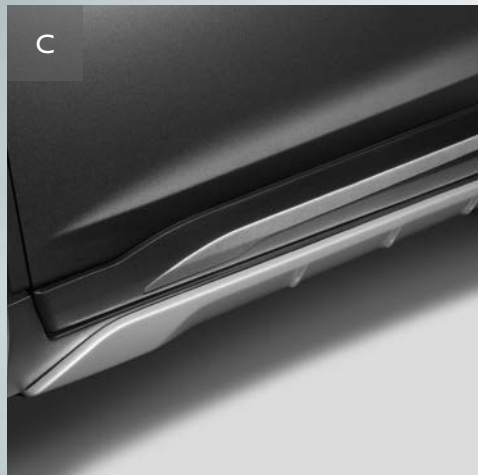

Vehicle Dynamic Control helps keep you going in the direction you intend. It works by monitoring your steering and braking input compared to the vehicle’s actual path, then reduces engine power and/or applies appropriate braking to specific wheels to help keep you on the path you steered.

The available **Rear Sonar System** gives you an added ally in your pursuit of parking, with sensors at the rear looking out for static objects and giving you an audible warning when it detects you’re getting close.

ACCESSORIES

The **totally new Nissan Kicks** has several accessories options so you can make it uniquely yours. You just have to decide how to customize it.

A. Front skirt

Be the center of attention since your arrival

B. Back skirt

The perfect complement for the rear fascia

C. Lateral skirts

Improves its sports and streamlined appearance

D. Rear spoiler

Give continuity to its signature floating roof

E. Sports stickers

Accentuate its design lines giving them more movement

F. Portable DVD

Share entertainment with your loved ones

G. Chrome exhaust

A feature that will make heads turn

Features and specifications can change depending on market requirements. Please consult your local dealer.

10 REASONS TO CHOOSE THE TOTALLY NEW NISSAN KICKS

1.6 L engine, (118 hp and 110 lb-ft), the perfect balance between power and fuel economy

Push Start Engine Button and Intelligent Key (iKey®) with locking and unlocking doors

Rear Sonar System that sends alerts to the driver when it detects objects while parking or backing out

Floating roof and exterior streamlined design that merge in every trip

Audio System AM/ FM / AUX-IN / USB / Bluetooth® and **7" color touchscreen**

Carplay® and Android Auto® give you interaction and connectivity between your smartphone and the vehicle's screen

With the **rearview camera at the back of the vehicle**, you can minimize the risk of collision

Leather-appointed seats with Zero Gravity technology that helps reduce fatigue on longer drives

Hill Start Assist can help keep you from rolling backwards when you move your foot from the brake on an incline

6 airbags: 2 front airbags, 2 curtain side-impact airbags, 2 side-impact airbags

Features and specifications can change depending on market requirements. Please consult your local dealer.

NISSAN INTELLIGENT MOBILITY

Intelligent Mobility guides everything we do. We're using new technologies to transform cars from mere driving machines into partners. Together the journey is more confident, connected and exciting. Whether it's cars that share the task of driving with you, or highways that charge your EV as you go along, it's all in the very near future. And it's a future already taking shape in the Nissan you drive today.

Innovation that excites
