Tough, agile and stylish, the new Nissan NP300 NAVARA 4x4 is the latest in a long line of Nissan pick-ups – we produced our first in 1935. Along the way we’ve pioneered the mid size truck pick-up King Cab in 1977, the innovative C-channel lashing system in 2005, and now the first use on a one-ton pick-up of a multi-link coil-spring rear suspension.

Our proud legacy, shared among 14 MILLION PICK-UP OWNERS blazing trails in 180 COUNTRIES continues today. As long as there’s adventure on the horizon, Nissan will lead the way.
INTRODUCING THE ALL-NEW NISSAN NP300 NAVARA.

We’ve always built strong, dependable pick-ups and we’ve consistently innovated to deliver what you want. With its fully boxed frame, 4X4 command, robust 2.3l 190HP twin turbo diesel engine or 160 HP single turbo engine, proven over millions of miles, the new Nissan NP300 NAVARA delivers the rugged performance and best-in-class fuel economy you demand from a Nissan pick-up. Sipping just 6.4l per 1,000km, it takes you off and on-road without missing a beat - and with a standard 5 Year / 160,000 km warranty, that’s a promise you can trust. Experience the excitement of the next generation pick-up - a tough, confident ride in premium comfort.
THE PICK-UP YOU CAN TRUST, RIGHT DOWN TO ITS CORE.

The new Nissan NP300 NAVARA 4x4 pick-up has a fully boxed ladder chassis rather than the three-sided channel-section frame found on some other pick-ups. There's also a new multi-link coil spring rear suspension, unique in the European one-ton pick-up segment. This gives a better ride and more agile handling, without compromising load-carrying ability.
CLIMB, CRAWL AND POWER YOUR WAY THROUGH.

Whether it's the depths of the country or the concrete jungle, the new Nissan NP300 NAVARA is always in its element. There are three driving modes – 4WD High for light off-roading, 4WD Low for serious off-road driving in sand, snow or deep mud, or 2WD for when you're on tarmac. With features such as Hill Start Assist and Hill Descent Control, it's the pick-up that's ready for anything and it gives great traction, even in 2WD mode with non-aggressive-tread tires thanks to eLSD.

Hill Start Assist
Shift-on-the-fly 4-Wheel Drive
4-Wheel Active Brake Limited Slip
Electronic Locking Rear Differential
Hill Descent Control

Hill Start Assist and Hill Descent Control. Tackling hilly terrain? Now you can do it with more confidence and control. On an incline, Hill Start Assist can help keep you from rolling backwards when you're accelerating from a stop. And Hill Descent Control helps you maintain steady speed and braking, so you get back down a steep grade more safely.
DEVOURS ROADS.

Outside, it’s a 4x4 pick-up. Inside, the new Nissan NP300 NAVARA is more like a Premium Crossover. Check the ergonomic design of the dashboard and high quality materials. Relax in the astronaut-inspired spinal-support seats, set the dual-zone Automatic Temperature Control and revel in the comfort of multi-link coil spring rear suspension. More than a workhorse, this pick-up’s a pleasurable daily ride.

2.3-litre intercooler diesel
Generating more horsepower and torque and with fuel savings up by 24%, the new improved 190HP twin turbo diesel engine with 6-speed manual or 7-speed automatic transmission delivers best-in-class acceleration and efficiency at the same time.

YOU’VE GOT SERIOUS PULL.

Of course the boat can come along. Because capable towing is engineered right into the NP300 NAVARA, starting with its full-length, fully boxed ladder frame. Add to that heavy-duty components, including braking transmission and cooling systems, plus plenty of power and low-end torque, and you’re ready to pull some serious weight. Towing capacity of 3.5T on all 4WD models.
LOAD UP OUR MOST VERSATILE PICK-UP BED EVER.

The new Nissan NP300 NAVARA is engineered to handle tough jobs and heavy payloads of 1T and towing of 3.5T. A lighter tailgate makes loading and unloading simple. Ensuring your cargo is secure is easy, too, thanks to Nissan’s revolutionary C-channel tie-down system. Moveable cleats can be locked anywhere in special tracks and on the three sides of the pick-up bed, so you can tie down any load, of any shape or size.
The King Cab has hinged rear doors that give your passengers easy entry to the cabin, as well as those larger items that can’t fit through a typical door opening. The two rear seats face forward or flip up out of the way to reveal a large open space for quick access to items.

**STORE IT. HIDE IT. LOCK IT. LOVE IT.**

A thoughtfully designed, flexible interior featuring lots of clever storage space is handy for work and play. There’s a spot for your stuff underneath the rear passenger seats, in the side door pockets, in the generous glove compartment and in the large centre console too. Thirsty? You’ll find cup-holders almost everywhere you look: next to the front seats and even designed into the front and rear door pockets.

Oversized pockets located in the driver and passenger doors offer ample, easy-to-access storage. The high-capacity glove compartment is ideal for your documents and files, even the bulkier ones.

Storage trunks conveniently located under the rear seats are perfect for tools you want to keep concealed.

The centre console includes large cupholders and a deep covered storage for items you want close at hand but out of sight.
In the new Nissan NP300 NAVARA, you’ll find unexpected comfort and space from every seat. Up front, astronaut-inspired zero-gravity seats create neutral posture and improved blood flow to help make those long rides a lot more comfortable. Plus, dual-zone Automatic Temperature Control means you and your passengers can each keep things as cool or warm as you like, while circular side vents pinpoint exactly where you want the air to go – which helps out everyone on board, including rear passengers who have their own vents.
MASTER YOUR DOMAIN.

All controls are in exactly the right spot for quick mastery of your environment. Nissan Intelligent Key with Push Button Ignition allows you to lock and unlock the doors and start the ignition without taking your key out of your pocket. The available sporty, leather-wrapped steering wheel with audio controls lets you operate cruise control and the audio system while your hands stay right where they should. And the available Bluetooth Hands-free Phone System lets you make and take calls with ease.
NISSAN ADVANCED DRIVE-ASSIST DISPLAY

INNOVATION THAT’S RIGHT IN FRONT OF YOU.

With so much going on around you, it’s easy to lose sight of what’s most important: driving. From fuel economy to song tracks to turn-by-turn navigation, the Advanced Drive-Assist Display serves up info right in front of you – helping to minimize time looking away. So you can focus on what really matters.
YOUR WORLD, SERVED UP.

With NissanConnect, your new Nissan NP300 NAVARA becomes your smartphone’s best friend, which means no more separation anxiety for you. Because now your own hand-picked music, Facebook news feed, latest tweets, TripAdvisor tips, and more all come along for the ride, working seamlessly together through your smartphone and the 7-inch colour touchscreen on your dash. And it keeps on getting better: the basic app package is complimentary for the first three years.

Keep in the loop with the Nissan Navigation System complete with voice recognition, hands-free text messaging, Bluetooth hands-free calling, audio streaming, digital radio (DAB+) and an iPod/USB input.
NISSAN SAFETY SHIELD
SURROUND YOURSELF WITH CONFIDENCE.

Wouldn’t it be smart if you had the confidence you need for every part of your drive? The Nissan Safety Shield is a comprehensive approach to safety that guides the engineering and development of every vehicle we make. The features described here are just some of many on your new Nissan NP300 NAVARA, helping to protect you and yours by focusing on three key areas: keeping an eye on your vehicle’s systems and the surroundings, assisting in handling unexpected situations, and helping to keep you safe in the unfortunate event of an accident.

Traction Control System (TCS). TCS helps you keep a better grip on the road. It senses when a drive wheel starts to slip and reduces engine power or applies brake pressure to help restore traction.

Zone Body Concept. Nissan’s Zone Body Concept helps absorb the impact and protect the passenger compartment during a collision. It features a high-intensity cabin structure with crossmembers and reinforcements, front and rear crumple zones, and an energy-absorbing steering column.

7 Standard Air Bags. Driver and passenger airbags in the front, two side-impact airbags mounted in the front seats, two side-impact curtain airbags mounted in the roof and an airbag for the driver’s knee.

Around View Monitor. Four cameras give you a virtual 360º bird’s-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curbside views, so you can get a better look. Works up to 10 kph so you can check slow-speed manoeuvring on-road or off-road to avoid obstacles.

Vehicle Dynamic Control (VDC). VDC monitors your steering, braking and the vehicle’s stability and, if needed, will reduce engine output and apply brake pressure to specific wheels in order to keep you on your intended path.

Electronic Limited Slip Differential (eLSD). In low-friction conditions (snow, mud, dirt, bumps, sipes, etc.) the vehicle senses if one wheel is slipping and automatically slows that wheel using the brakes to regain traction and keep you moving. Works on all 4 wheels.

Anti-lock Braking System (ABS). ABS prevents the wheels from locking under hard braking, allowing you to stop quicker and at the same time steer around obstacles. Electronic Brake force Distribution (EBD). EBD automatically sends extra force to the rear brakes when it detects there’s additional weight in the back.

Forward Emergency Braking (FEB). Radar mounted in the front bumper measures the gap to the car in front. If it recognizes there is a risk of collision, it will give an audible and visual warning. If the driver doesn’t brake enough, the vehicle will automatically brake to avoid an accident. The system works at any speed and is guaranteed to stop without collision up to 30 kph.

NISSAN SAFETY SHIELD
SURROUND YOURSELF WITH CONFIDENCE.
WORK HARDER
LIVE LONGER

Engineered to give years of tough, reliable service, NP300 NAVARA is the pick-up of the pros. The harder you push, the harder it pulls - up to 3.5T in all conditions. Heavy duty to the core and built to last, it's the most dependable partner you'll find for miles. Fully equipped with Nissan's latest technology suite, this workhorse is a true pedigree.

NISSAN LCV 5 YEAR MANUFACTURER WARRANTY

Nissan now offers a standard 5 Year Pan-European Manufacturer Warranty on NP300 NAVARA*. This is much more than just a warranty as it includes:

- 5 Year or 160,000 Km bumper-to-bumper protection
- 5 Year Paintwork Warranty – covering the body paint
- 5 Year Nissan Genuine Parts & Accessories Warranty
- 5 Year Roadside Assistance
- 12 Year Corrosion Warranty
- Fully transferrable

And with service intervals at 24 months or 30,000 Km for Diesel engines, you’ll not only have 5 years’ peace of mind but also low running costs into the bargain.

NISSAN SERVICE PLAN

Nissan Service Plan is the easiest way to give your Nissan NAVARA the maintenance it deserves while you save money in the long run. Nissan Service Plan provides a convenient and easy solution, enabling you to spread the cost of your servicing needs by making low monthly payments rather than having to pay the full amount all at once. Nissan Service Plan also ensures that your Nissan NAVARA is serviced in line with manufacturers recommendations/specifications giving you peace of mind motoring. A well maintained vehicle offers Nissan drivers safety, reliability and economy with a “FSH” (Full Service History) also protecting future residual re-sale values. Nissan Service Plan customers can also rest assured that your vehicle is maintained and serviced by qualified Nissan technicians using Genuine Nissan Parts.

5 YEAR ROADSIDE ASSISTANCE

- Pan-European coverage for breakdowns, accidents, non-warrantable incidents (such as flat tyres, lost keys, wrong fuel…)
- 24/7, 365 day
- Emergency Call Centre
- Prompt roadside assistance

If this is not possible and your pick-up is still immobilised after a few hours, we will make sure you are provided with a courtesy vehicle as soon as possible or if necessary, overnight accommodation and travel to your onward destination or back to your base. We will also recover your immobilised pick-up.

*5 Year / 160,000 Km (whichever comes first) Manufacturer Warranty
For more details, please refer to Nissan Warranty Booklet.

At Nissan, you bring out the best in us.

You spark our imagination. You provoke our ingenuity. You inspire us to change the rules and innovate. And at Nissan, innovation is not just about additions and extensions; it’s about crossing the line to reinvent the status quo. It’s about developing unexpected solutions to satisfy your wildest and most pragmatic desires. At Nissan, we design vehicles, accessories and services that break the mould - making the practical exciting and the exciting practical to offer you a more exhilarating driving experience everyday.
