NEXT-LEVEL TECHNOLOGY FOR A CONFIDENT AND ENERGIZING DRIVE

Nissan Intelligent Mobility is redefining the way we power, drive and integrate cars in the world around us. It’s bringing you and your X-TRAIL closer together for a more confident, more exhilarating ride. It’s making your journey more personal through advanced connectivity and empowering you through progressive technologies. It’s enhancing the joy of being behind the wheel and turning the world into a safer place everyday.
BREATHTAKING FROM TOP TO BOTTOM

Want to share an inspiring view on a starry night? Need a cozy refuge on a chilly morning? X-TRAIL makes sure you're well taken care of.

To design their zero-gravity-inspired seats with spinal support, Nissan's engineers looked to the cosmos. They recreated the relaxed posture of astronauts floating in space by designing an articulated front seat that supports you from the pelvis to the chest optimizing the blood flow, and seat cushions that provide better pressure distribution. The result is exceptional comfort and less fatigue on the long distance trips of your adventures.

More inspiration comes from the available Power Panoramic Moonroof, offering everyone aboard the most stunning theatre view of the sky and stars.

When the going gets tough, Nissan Intelligent Park Assist makes it smoother. Just line up your car with the parking space and it will guide you in, hands-free! GET A HAND WHEN YOU WANT IT
STEPPING IN WHEN YOU NEED IT

Meet your co-driver. It sees, it senses, it jumps in. From smart safety features that step in on your behalf to fully autonomous driving aids, from Intelligent Park Assist to Intelligent Emergency Braking with Pedestrian Recognition, New Nissan X-TRAIL acts as your Nº1 partner, always looking out for you, always there to support you, and never forgetting about those around you.

INTELLIGENT EMERGENCY BRAKING WITH PEDESTRIAN RECOGNITION.
Constantly monitoring the presence of objects or pedestrians in your way, this system will prevent you from bumping into anybody hidden from the driver’s perspective.

INTELLIGENT LANE DEPARTURE WARNING.
This system will alert you of drifting by giving audible and visible warnings.

HIGH BEAM ASSIST.
See more on dark roads. This system will activate the beams as soon as you need them and temporarily dip the lights for oncoming traffic.
Nissan's Intelligent Driving Systems use advanced radar technology to constantly monitor all the activity around you, keeping tabs on the traffic and helping you handle any unexpected situations. It’s like having an extra pair of eyes keeping watch so that you can make the most of your family adventure.

**INTELLIGENT BACK-UP INTERVENTION.** This system will warn you if there is any oncoming traffic or large objects behind you when you’re reversing.

**TRAFFIC SIGN RECOGNITION.** Stick to the latest speed limits thanks to automatic road sign detection as you go.

**INTELLIGENT BLIND SPOT INTERVENTION.** This system can see what the eye cannot. It will warn you if it detects any vehicles in your rear diagonal blind spot.
INTELLIGENT RIDE CONTROL. 
Take the rough with the smooth. This system applies subtle braking to prevent turbulence over bumps and enhances the overall comfort of the ride for the whole family.

INTELLIGENT TRACE CONTROL.
Keep cool when cornering. This system adjusts brake pressure on individual wheels to keep you on an optimal line through turns.

INTELLIGENT ENGINE BRAKE.
Feel the curve. This system controls the CVT as though you’re driving manual through a light bend. It shifts down to smoothly decelerate on your way through the curve, then shifts back up to accelerate on your way out.

DRIVE MORE LIKE A PRO
X-TRAIL, QUIETLY MAKING YOU A BETTER DRIVER.
The X-TRAIL is so agile and responsive, it actually improves your driving. Nissan’s Chassis Control technologies make it smooth to handle and supple yet secure to drive – ensuring an exciting yet comfortable journey for everyone on board. So pile in and have some fun.
DRIVE MORE LIKE A PRO
ADAPT TO RAIN OR SLEET IN THE BLINK OF AN EYE
The X-TRAIL can adapt to changing conditions 30 times faster than the blink of an eye. Whether it’s snow, rain-covered pavement or a tight turn, the system will automatically send power to the wheels that need it the most. Even in ideal conditions, the X-TRAIL’s AWD system pays big dividends; getting a grip has never felt better.

HILL START ASSIST/AUTO HOLD. No rolling backwards. With Hill Start Assist, encountering an incline is simple. It applies the brakes to all four wheels to hold the car for 3 seconds, before the drive fed to the wheels releases them. With the Auto Hold function activated, the brakes are held for 3 minutes on any gradient.

INTELLIGENT 4X4. With X-TRAIL’s All-Mode 4x4-i, you’ve got a system that’s capable on-road and off. You can choose full-time 2WD for maximum efficiency. Auto Mode constantly monitors conditions and adjusts the balance of power between front and rear.
In the latest version of XTRONIC (Continuously Variable Transmission), friction is reduced up to 60% and the ratio coverage is increased to greater than that of some 8-speed automatics. A new Eco mode improves fuel economy at the touch of a switch. Combined with such smooth performance, it’s like riding a continuous wave of power.
