With over 40 years of legendary automotive engineering, the Nissan Z range has proven what a rich sports car heritage it owns. Every element of the vehicle is passionately designed and engineered to provide an extraordinary experience for the sports car enthusiast. Outstanding style, exhilarating performance, the Nissan 370Z lets you find your freedom and Live Life In The Red.

INTRODUCING NISSAN ASSURED, IT’S MORE THAN A PROMISE. AS PART OF THE NISSAN FAMILY YOU’RE GUARANTEED OUR COMMITMENT TO CUSTOMER CARE. A LASTING BOND BETWEEN YOU, YOUR VEHICLE AND THE NISSAN BRAND. THAT’S OUR PROMISE.

CUSTOMER EXPERIENCE
We promise to make your Nissan experience one to cherish, returning delivery day and everyday after, our commitment is to deliver a service experience you can trust and believe in.

CUSTOMER SUPPORT
ROADSIDE ASSISTANCE
We keep you on the road 24/7 should anything unexpected happen. We guarantee you 24-hour roadside assistance, no matter the age of your Nissan, just call 0800 NISSAN (64 77 26) anywhere, anytime.

LICENCE RENEWAL REMINDER
We’ll remind you in advance so you can keep your licence disk up to date.

SERVICE AND REPAIRS
FREE VEHICLE HEALTH CHECK
We’ll give your car a free health check on every major and minor service prior to any work being carried out, so you know exactly what needs to be done, and how much it will cost.

COMPETITIVELY PRICED PARTS
We deliver the highest care for your Nissan by fitting only Nissan Genuine parts. The expertise of our Nissan trained teams will also guarantee best value for money by finding the most competitively priced part for your local dealer.

LIVE LIFE IN THE RED

WE MAKE PROMISES.
WE KEEP PROMISES.

6 YEAR OR 150 000KM WARRANTY
As long as your car is under our warranty we’ll always have you covered if anything goes wrong. You don’t need to stress for the first 6 years or 150 000km, whichever comes first.

3 YEAR OR 90 000KM SERVICE PLAN
For the first 3 years or 90 000km of driving your car, whichever comes first, you can rest easy knowing that our promise to you is kept one, well make sure your car is running smoothly, and safely on the road.

SERVICE AND REPAIRS
FREE VEHICLE HEALTH CHECK
We’ll give your car a free health check on every major and minor service prior to any work being carried out, so you know exactly what needs to be done, and how much it will cost.

COMPETITIVELY PRICED PARTS
We deliver the highest care for your Nissan by fitting only Nissan Genuine parts. The expertise of our Nissan trained teams will guarantee best value for money by finding the most competitively priced part for your local dealer.

COURTESY CAR
We will arrange a courtesy car for all warranty repairs should the components required not be available within 48 hours.

Nissan 370Z

Call 0800 NISSAN (64 77 26) or visit www.nissan.co.za for more information.
THE LAST AUTHENTIC SPORTS CAR
THE STYLE REFINED
THE FEELING OF INNOVATION

There’s a curvy road not far from town: it’s the perfect place to hear a dual exhaust bounce 245kW of pure adrenaline off the edge of a cliff. To feel the massive braking power of 355mm front discs as you set up for a tight hairpin turn. The feedback through the wheel and seats as a dynamically balanced chassis just grips and grips and grips. And a perfect downshift thanks to the world’s only rev matching manual transmission. And somewhere along the way, find a scenic turn off and just take in its aggressive athletic look.
SOME MAY SAY YOU’RE OBSESSED, but we understand – it’s a sports car! That’s why you’ll find the main gauges adjust with the steering column, so you always have a clear view. The centre console controls are located within easy reach, and are easily identifiable by touch.

SEATS DESIGNED TO HOLD YOU
The Nissan 370Z’s driver’s seat shows how seriously we take every detail of driving. The upper seat back has cutaway areas to help your arms move freely for steering and changing gears. To let you work the pedals more easily, the lower seat cushions also feature cutaways. Along with aggressive side bolsters, the seat also features anti-slip materials to help hold you in place.

A PLACE FOR EVERYTHING
While it’s fun to attack your favourite twisty road, a sports car also has to function for day-in, day-out driving. To keep things orderly, the Nissan 370Z features three cup holders, a lockable glove compartment, dash-mounted storage, parcel shelves behind both seats and a handy parcel box behind the passenger seat.

CARGO AREA
Plenty of open space for the important things in life – like sports gear. An available retractable cargo cover also helps keep precious belongings out of sight.
LEGENDARY POWER
The Nissan 370Z is powered by the 4th generation V6 engine, with 3.7-litre displacement for massive muscle. This 245kW dynamo features advanced Variable Valve Event and Lift (VVEL) technology that continually tunes valve lift and timing for quicker response and a broader torque curve, while optimising fuel efficiency and reducing emissions. Sound impressive? Check it out. The exhilaration from idle to the 7500rpm redline — on the straights or through the corners — is pure magic.

A WORLD’S FIRST
SynchroRev Match® technology — the first in any production car — monitors the 6-speed manual’s clutch pedal, shift lever and vehicle speed. As you change to a lower gear, the system will ‘blip’ the throttle to the ideal engine rpm for a supremely smooth downshift as you let out the clutch. The system also works when changing up gears to give you a smooth flow of power when accelerating.

CONTROL AT YOUR FINGERTIPS
Want effortless cruising? Put the 7-speed automatic transmission into ‘D.’ For a quick gear change, just pull the steering column-mounted lightweight magnesium paddle shifters. In Manual mode, you get manual-style control with a nudge of the gear lever or a pull of the paddle shifters. The transmission can even hold a gear in cornering for better balance, or downshift before a corner for more effective braking. And when a downshift is needed, Downshift Rev Matching automatically opens the throttle to match the rpm for smoother gear changes.

THE FEELING OF A PERFECTLY MATCHED DOWNSHIFT
KNOWLEDGE IS POWER
Nissan’s state-of-the-art SATNAV keeps you one step ahead with a 9.2 GB hard drive music storage, large 7” touch screen and voice recognition in 7 languages, it brings you high-definition 3D maps. Opt for the Rear View Monitor and see what’s directly behind you.

USB INPUT
Plug your iPod, MP3 player or USB flash drive into the available USB input and you can control its functions through the audio system or touch-screen monitor, plus get song readouts on the digital display.

BLUETOOTH
The available handsfree Bluetooth phone system lets you make and receive calls through the audio system. The navigation system also allows you to stream music from any compatible device via Bluetooth wireless technology.

TURN IT UP
If the Nissan 370Z’s spine-tingling dual-exhaust note is music to your ears, just wait ‘til you hear your personal soundtrack blasting out of its made-to-measure BOSE® audio system. With 8 top-of-the range speakers and a 6-CD changer for all your audio CDs and MP3 or WMA recordings, it’s guaranteed to amplify your experience.
DESIGNED TO CONQUER EVERY CORNER, the Nissan 370Z starts with a low centre of gravity and a short wheelbase for quick response. Structural supports under the bonnet and along the body reinforce the chassis to precisely manage the loads the suspension can dish out. Add in an enthusiast’s wish list of high-performance components. And at every turn of the wheel, find pure joy as the Nissan 370Z turns handling science into pure performance art.

DOMINATE THE DRIVE

4-PISTON BRAKE CALIPERS ON 355mm FRONT ROTORS
Balance doesn’t only apply to cornering. Bringing the powerful Z to a halt are its largest brakes ever – 355mm front discs, with the gripping power of 4-piston front callipers. Purpose-designed ducting helps to reduce fade and provide predictable and precise stopping power.

VEHICLE DYNAMIC CONTROL
A great sports car shouldn’t just exhilarate, it should also inspire confidence. Vehicle Dynamic Control (VDC) on the Nissan 370Z continually monitors the speed of each wheel, steering angle, yaw, lateral G-forces and even braking pressure. It compares the data to the steered vehicle path and, if it senses the onset of under-steer or over-steer, VDC brakes individual wheels and/or reduces engine power to help keep you on your steered course.

LIGHTWEIGHT SUSPENSION COMPONENTS
The lighter a suspension’s components, the more quickly it can react to the driver and bumps in the road. Use of strong yet lightweight aluminium makes the Z suspension extremely responsive. Its double-wishbone front and 4-link rear design helps to keep the tyres vertical to the ground, maximizing their contact patches. Dual flow pass shocks enhance control. And super-light forged 19” alloy wheels are available for even quicker response.

53/47 WEIGHT DISTRIBUTION
Some consider a static 50/50 balance to be the perfect weight distribution for handling. But Nissan engineers realised that a 53 front/47 rear static ratio is actually ideal. At the precise moment the driver accelerates out of a corner’s apex, the weight distribution shifts to the rear and becomes an approximate 50/50 balance. This translates into enhanced tyre contact for better acceleration, faster turns and a handling feel that’s uniquely Z.

53% 47%
PROTECT - MINIMISE DAMAGE WHEN A COLLISION IS UNAVOIDABLE

In cases when an accident cannot be avoided, additional Nissan technology helps reduce injuries and damage.

Nissan Advanced Air Bag System – includes dual-stage supplemental front airbags equipped with seatbelt sensors and an occupant-classification sensor. These dual-stage airbags adjust their inflation rate depending on the severity of impact and seatbelt use. If the passenger seat is empty, a sensor actually deactivates that airbag. In addition, standard side-impact supplemental airbags are built into the seats, so they move with you as you adjust your seat. Standard curtain side impact supplemental airbags help protect you and your passenger.

Like every Nissan vehicle, the Nissan 370Z comes equipped with a suite of standard safety, driving, and convenience features designed to inspire confidence behind the wheel, and help make every ride better, safer, and more enjoyable.

SAFETY SHIELD PHILOSOPHY

HIGH-PERFORMANCE PROTECTION

MONITOR - MAINTAIN COMFORTABLE DRIVING

Even when a risk has not appeared, Nissan technologies make it easier for the driver to maintain safe driving conditions.

- Rear View Monitor – Engage reverse, and the available Rear View Monitor is there to assist you. A camera on the rear of the vehicle shows you what’s directly behind you, on the dash-mounted screen in front of you.

- Auto-sensing Bi-Xenon Headlights – Respond to light conditions outside, turning on or off when necessary, and leaving you to concentrate on the road ahead.

RESPOND - RECOVER FROM DANGEROUS CONDITIONS

When a risk appears, warnings and automatic countermeasures help the driver avoid it.

- Vehicle Dynamic Control (VDC) & Traction Control System (TCS) – When it detects over-steer or under-steer, VDC can reduce engine power and apply brake pressure to specific wheels. Working with VDC, TCS can sense rear-wheel spin and reduce acceleration to help keep you on your steered path.

- Anti-lock Braking System (ABS) – When you need to stop in a hurry, the ABS pumps the brakes faster than you possibly can, helping to prevent wheel lockup and maintain steering control.

- Electronic Brake-force Distribution (EBD), & Brake Assist – Should you ever need to hit the brakes hard, Brake Assist will help you come to a quicker stop by applying maximum braking force. If you’ve got cargo in the trunk, EBD will detect the added weight, and send extra force to the rear brakes.

- Front-seat Active Head Restraints (AHR) – Front-seat Active Head Restraints help reduce the chances of whiplash injuries to front-seat occupants by moving up and forward during certain rear-end collisions.

- Seat belt technologies – Utilize pretensioners to help tighten the belt when front airbags deploy. And if your body puts too much force on the belt, load limiters give a little to compensate.

Intelligent Mobility guides everything we do. We’re using new technologies to transform cars from mere driving machines into partners. Together the journey is more confident, connected, and exciting. Whether it’s cars that share the task of driving with you, or highways that change your EV as you go along, it’s all in the very near future. And it’s a future already taking shape in the Nissan you drive today.
